

Seat lowering adapters Mazda MX5 NC Facelift

Fits: Mazda MX-5 NC Facelift version (NC2,NC3 2009-2014), for seats with height adjustment.
Also fits prelift NC1 (2005-2008) for seats with height adjustment.

Installation guide:

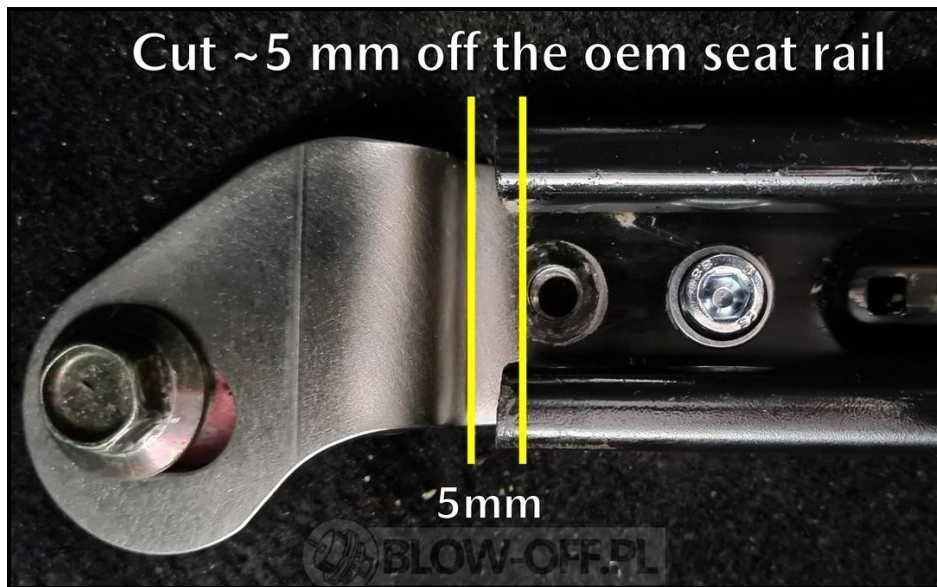

1. Disconnect the battery.
2. Remove the seat from the car - unscrew the four screws securing each seat to the floor, disconnect the plug from the harness.
3. Passenger side: Drill out two rivets out of the standard rear mountings for passenger seat rail.

4. Screw in the new lowering plates on the underside using bolts and washers. Important - head of the bolt must point upwards (rail side) .

5. Driver side: Unscrew stock seat rail mounts. Shorten the two rails of the driver's seat. Cut lines : 5 mm from the last hole.

6. Screw in the new lowering plates on the underside using bolts and washers. Important - head of the bolt must point upwards (rail side) .

7. Install the seat using the stock fastening screws.

8. Enjoy lower and better seat position in your MX-5 NC FL!
